**NOTES TO THE FINANCIAL STATEMENTS FOR CURRENT QUARTER AND YEAR TO  
DATE ENDED 29 FEBRUARY 2020**

**A. EXPLANATORY NOTES**

**A1 BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS**

The interim financial statements are unaudited and have been prepared in accordance with Malaysian Financial Reporting Standards ("MFRS") 134 "Interim Financial Reporting" and Paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities") for the ACE Market.

The report should be read in conjunction with the audited financial statements of the Group for period ended 30 November 2019. The explanatory notes attached to the quarterly financial report provide an explanation on events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the financial period ended 30 November 2019.

The accounting policies and methods of computation adopted by the Group in the quarterly financial report are consistent with those adopted in the audited financial statements of the Group for the financial period ended 30 November 2019 except for the adoption of the following MFRS and Amendments to MFRS:

<u>MFRS and IC Interpretations (Including the Consequential Amendments)</u>		<u>Effective for annual periods beginning on or after</u>
MFRS 16	Leases	1 January 2019
Amendments to MFRS 9	Financial Instruments – Prepayment Features with Negative Compensation	1 January 2019
Amendments to MFRS 119	Employees Benefits – Plan Amendment, Curtailment or Settlement	1 January 2019
Amendments to MFRS 128	Investments in Associates and Joint Ventures	1 January 2019
Annual Improvements to MFRS standards 2015 - 2017 Cycle		1 January 2019
IC Interpretation 23	Uncertainty over Income Tax Treatments	1 January 2019

## A1 BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS (CONTINUED)

The adoption of the above pronouncements did not have material impact on the financial statements of the Group, except as follows:

### **MFRS 16 Leases**

MFRS 16, which upon the effective date will supersede MFRS 117 Leases, introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. Specifically, under MFRS 16, a lessee is required to recognise a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments. Accordingly, a lessee should recognise depreciation of the right-of-use asset and interest on the lease liability, and also classifies cash repayments of the lease liability into a principal portion and an interest portion and presents them in the statement of cash flows. Also, the right-of-use asset and the lease liability are initially measured on a present value basis. The measurement includes non-cancellable lease payments and also includes payments to be made in optional periods if the lessee is reasonably certain to exercise an option to extend the lease, or not to exercise an option to terminate the lease. This accounting treatment is significantly different from the lessee accounting for leases that are classified as operating leases under the predecessor standard, MFRS 117.

In respect of the lessor accounting, MFRS 16 substantially carries forward the lessor accounting requirements in MFRS 117. Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for those two types of leases differently.

The Group is currently assessing the impact of adoption of MFRS 16. As at the date of authorisation of issue of the interim financial statements, this assessment process is still on-going. Thus, the impact of adoption cannot be determined and estimated reliably now until the process is complete.

The following MFRS and Amendments to MFRS have been issued by MASB but are not yet effective to the Group:

<u>MFRS and IC Interpretations (Including the Consequential Amendments)</u>		<u>Effective for annual periods beginning on or after</u>

The Group recorded revenue of RM3.66 million in current quarter higher than RM0.03 million in previous quarter, mainly due to project sales of network equipment and infrastructure in Non-payment segment in current quarter.

The loss before tax of RM4.9 million in current quarter, lower losses as compared to RM9.67 million in previous quarter mainly due to bad debts written off of RM5.1 million and intangible assets written off of RM2.82 million in previous quarter, mitigated by to loss on fair value adjustment on investment in MLAB System Berhad of RM3.9 million and share-based compensation expenses of RM0.5 million for share option granted to employees in current quarter.

## B3 FUTURE PROSPECTS

The Group has upgraded the GEM application and relaunching it with a new name – GEM Spot in December 2019, which is in-line with the company's new vision of putting a spotlight on all F&B merchants in Klang Valley through its new comprehensive F&B directory listing that allows users to search, get essential information, make plans and place their bookings conveniently all at once.

At the same time, GemSpot Lite, the merchant web application created to support the backend of F&B businesses has launched alongside GemSpot, focusing on the three main pillars of any F&B business which are sales, operations and marketing. The GemSpot Lite platform is set as a replacement for a merchant's business backend and will assist in reservation management, floor planning and even sales tracking, all within an easy-to-use and dynamic user interface.

In light of the ongoing COVID-19 pandemic which has resulted in a nationwide Movement Control Order (MCO) enforced by the Malaysian Government since 18th March 2020, GemSpot has pivoted its business model to now cater to on-demand food delivery with users being able to order food and beverages in-app as restaurants are currently unable to serve patrons in their outlets and are compelled to resort to takeaway and delivery options for retail survival.

At this juncture, the Group plans to maintain the on-demand food delivery feature as a permanent component of the GEM Universe ecosystem. GemSpot will also offer digital marketing support through its unique Key Opinion Leader (KOL) marketing program which will be built into the existing GemSpot app platform and is meant to function as a marketing awareness tool for businesses. The first phase of development for these enhancements have commenced in April 2020 and is expected to be fully completed by stages in early December 2020.

### B3 FUTURE PROSPECTS (CONTINUED)

The Group also recognizes that while e-wallets as a financial payment product have a legitimate place in our financial system, there is a further need and opportunity to build an ecosystem for both merchants and e-wallet companies to work together and leverage off each other's industrial capabilities. The focus moving forward would be to build up the entire user experience with GEM's platform ecosystem that is meant to grow both user base and increase the touchpoints for merchants who are looking to elevate their businesses. This will ultimately improve the overall internal structure of financial management and benefit all parties.

Whilst we remain cautious over the outlook of the economy, the Group will continue to seek new business opportunities to invest in as it has adequate funds for such purposes. The Group will continue to reinvent and improve the business and will take affirmative steps to expand the Group's scope. Despite the uncertain market condition, the Group is optimistic to deliver a reasonable performance for the financial year ending 30 November 2020.
